Stand-alone topometer

Quick and easy to connect, simple to use

Article number : 30631

Advantages :

- Quick and easy to connect, simple to use
- No need for sensors (data retrieval from the vehicle's CAN network)
- Forward and rear distance measurement
- Measures the intervals for traffic cones set up, for example
- Automobile connectors supplied
- Electronics: EMC R10 approved

Uses :

- Topographical survey
- Construction site measurements
- Setting up of temporary signalling
- Road marking
- Road maintenance
