

## Pack CCS 4 Lite

Pack CCS 4 Lite, boîtier de commande entrée de gamme, pour véhicules de services (4 sorties)

Article number : 32136

Centralized control systems for specific vehicles

### Power module technical specifications:

- 1 triangle output (13A-reversible)
- 1 beacon output (6A)
- 1 warning lights output (3A)
- 1 output for other electric accessories (3A)
- 1 ground input for hand brake
- 1 input for rotating engine automatic start
- Maximum load: 25A
- Casing in ABS - Protection index: IP41
- Power supply: 12 V
- Protection against polarity inversion, short circuits and overconsumption

### Control panel:

- 4 buttons with automatic back lighting
- 1 On/Off button
- Low battery and short circuit alarm
- Power supply via a power module
- Button symbols adapted to equipment
- Dashboard control panel mounting system

|                              |   |
|------------------------------|---|
| <b>Voltage</b>               | 12V   |
| <b>Consumption</b>           | In standby mode: <1mA   |
| <b>Dimensions</b>            | with protective casing (H x W x L): 140 x 64 x 33 mm  |
| <b>Weight</b>                | 115 g   |
| <b>Inputs</b>                | 2 inputs  |
| <b>Outputs</b>               | 4 outputs   |
| <b>Operating temperature</b> | from -40 to +85°C   |
| <b>Enclosure rating</b>      | IP 41   |
| <b>Approval</b>              | ECE R10, EMC  |
| <b>Includes</b>              | Control panel with dashboard mounting system, 5 m BUS cable, power module, wiring and connecting kit, connectors, fuses and fuse holder, connecting kit for outputs and inputs, user and installation manual. |
