

Topometer Option

Add the Topometer function to your signalling units equipped with the Mercura XXL graphic control panel
Article number : 30180

TOPOMETER for signalling units with XXL graphic control panel

Advantages:

- Easily connected and user friendly
- No need for sensors (information obtained via the vehicle's CAN network)
- Distance measurement to the front and in reverse
- Example: used to establish the spacing between warning cones
- Compatible with Mercura roof systems (manufactured after 2012)
- Automobile connectors supplied
- Electronics: EMC R10 approved

Uses:

- Topographical readings
- Site measurements
- Installation of temporary signage
- Road markings
- Road maintenance
